7. What kind of food do the horse of L'Equ'Crin eat every day ? How many times do they eat every day ? 1pt

In our riding school, horses are fed with hay all night long when they go outside and they get 2 meals of concentrates during the day (Usually in the morning and at noon)

In other riding schools, horses get hay and concentrates in the morning; concentrates at noon; hay and concentrates at night.

8. What is the effect of the muscles bellow : 1pt

* Extensor muscle : extends or straightens a body part (enlarging the angle between body parts)

* Rotator muscle : rotates / turns two body parts

* Adductor or flexor muscle : bends a body part (decreases the angle between body parts)

9. What are stable bandages used for ? 0.5pt

Stable bandages stimulate recovery in the horse's legs after a strong effort. It helps reducing tendons' congestion.

10. Name the bits bellow that you used at the riding club. Describe their effect on the horse. 1pt

Eggbutt : most classical one

Baucher : lever effect, eases the necks' submission

Full Cheek : allows to stabilize the bit in the horse's mouth. Gives better channel especially when turning. Prevents the bit to get out of the horse's mouth when the riders uses only one rein

11. Describe the notion of « pli » 1pt

« Pli de l'atlas/axis » gives the tip of the nose. « Pli » is the angle formed by flexion

12. Upward and downward transitions. Explain : 1pt

- Their role (utility for the horse and the rider) : Allows you to check that your horses is listening to you and that you are in control

- What do you do to have a good transition ?

Upward transition : Legs (calf) and voice

Downward transition : straighten your chest, close your finger and voice

- What kind of problems would you face when asking for a transition ?

Your horse is not listening, pulling the reins or not answering to your legs

13. Equifun : Describe this discipline and name 3 obstacles you can find in the discipline. 0.5pt

Discipline that checks your handling abilities in a defined time
- Slalom, Zed, Chicane

14. In which disciplines does l'Equ'crin is represented in the French Championship ? 0.5pt

Hunter, Pony Games, Equifun, Mounted Archery

15. Why is mental training as important as physical training ? 1pt

A strong mindset helps you deal with your emotions and allows you to focus on your exercise or your competition.

16. In other riding clubs they don't usually let the horses go free at the end of the lessons, why is that ? 0.5pt

Because horses usually wear horseshoes so there is a risk of accidents. Also, they don't often live in herd

17. Name the 7 games in ethology : 1pt

1. The friendly game. 2. The porcupine game. 3. The driving game. 4. The Yo-yo game. 5. The circling game. 6. The sideways game. 7. The squeeze game

18. Name the different exercises that you can suggest to your horse when working on the ground with a hoop. 1pt

Rein-back in the hoop. Spin around the forelegs. Spin around the rear limb. Circle with a stop in the hoop.

19. Pony Games: name 3 games in the Pony Games discipline and explain the rules. 1pt

Slalom : Round trip weaving in and out

Balles et Cônes : Put the ball on the first cone and retrieve the second one to give it to your team-mate

Carton : Retrieve a piece of cardboard and put it in the bucket at the end of the field and come back with your team

How does the game start ? What is the name of the person starting it ?
(Bonus)

The Starter puts the flag down.

20. Why don't we clip the horses at l'Equ'Crin ? In which case do you clip a horse ?

1pt

Our horses live outside all year long so they need their coat to protect them from the cold. They can be clipped if they live inside with a rug or when they have parasites like lice.
